Scope

The purpose of this document is to serve notice of the discontinuation of a product, to define the level of service support and where applicable, advise of any new or alternative models that replace the discontinued product. In this case, the notice is issued retrospectively to effectively communicate the status of these products within the company.

Product(s) Discontinued

The following product(s) are affected by this discontinuation notice, where applicable the replacement model and part number is shown.

Part Number	Model	Replacement model	Part Number

Effective Date

This retrospective notice confirms that each of the products listed above have now been retired, and all were previously discontinued for a minimum period of 5 years. Peak Scientific will no longer accept orders for, or issue service contracts against these generators.

Replacement Products

There are *direct replacements* for some of these models, where applicable these are shown in the final column. If no direct replacement is indicated, there will be products within the Peak Scientific product portfolio which are capable of delivering a similar quantity or quality of gas. Please contact your Peak Scientific account manager should the requirement arise.

Service and Support

Peak Scientific will endeavor to provide 'best efforts' support for 1 year from the date of this notice; support may vary between models and is dependent on the future availability of spare parts.

A limited number of service kits/spare parts are available for some of these products. Please contact your Peak Scientific account manager if you have a requirement for service kits/spares.

Product Obsolescence

One year from the issue of this notice, the products listed above will be formally obsoleted and Peak Scientific will no longer offer direct support.
