Scope

The purpose of this document is to serve notice of the discontinuation/retirement of a product, to define the level of service support and where applicable, advise of any new or alternative models that replace the discontinued/retired product. For several of the products below, this notice is issued retrospectively to effectively communicate the status of these products within the company.

Discontinued Products

Peak Scientific have ceased production of the products listed below, therefore orders for these products can no longer be accepted. Where applicable, replacement products are shown. Typically, Peak Scientific will fully support all discontinued products for a period of 5 years post-discontinuation.

Retired Products

The following product(s) have been discontinued for a period of 5 years and have now been formally retired. Products typically enter a 1 year retirement phase after an effective discontinuation period of 5 years; thereafter products are formally obsoleted.

Replacement models and part numbers, where applicable, are shown below.

Part Number	Model	'Best efforts' support until	Replacement model	Part Number
20-1550	CFH200-220-EU-100Psi (Geoservices Mods)	<i>Feb. 2017</i>	Precision Hydrogen 200cc	63-0200
20-1730	CFH300-110-US 100Psi 19R	<i>Feb. 2017</i>	Precision Hydrogen 300cc	63-0300

Effective Date

This notice confirms that each of the products listed above have now been discontinued or retired, Peak Scientific will no longer accept orders for these generators.

Replacement Products

There are **direct replacements** for some of these models, where applicable these are shown. If no direct replacement is indicated, there will be products within the Peak Scientific product portfolio which are capable of delivering a similar quantity or quality of gas. Please contact your Peak Scientific account manager should the requirement arise.

Service and Support

Discontinued products

Peak Scientific will fully support all products listed as 'discontinued' until the date shown.

Service kits and spare parts will be made available for these products until the support period has ended, after this time we will endeavor to provide support for a further period of 1 year on a 'best efforts' basis, dependent on the future availability of spare parts. Please contact your Peak Scientific account manager if you have a requirement for service kits/spares.

Retired products

All retired products will supported on a 'best efforts' basis until the date shown. Availability of spare parts and service kits for these products is limited and may be subject to extended lead times. Please contact your Peak Scientific account manager if you have a requirement for service kits/spares.

At the end of this support period these products will be formally obsoleted and Peak Scientific will no longer offer direct support.
