

Peak Scientific - FlexFlow Pricing Guide

This document provides list pricing for FlexFlow plans for use by Global Sales teams. (Please note: Pricing may be subject to revision during pilot phase of program)

Plans are bracketed by maximum gas flow as per below, and underlying Genius generator required – based on either 10 Series (up to 32L/min) or 30 Series (up to 64L/min). Please refer to existing Application Guides to establish generator requirement and relevant plan below. For convenience, these can be accessed here: <http://resources.peakscientific.com/?c=734389>

Plan	Flow requirement	Monthly Subscription Charge*			Generators required for plan
		3 Year Plan	4 Year Plan	5 Year Plan	
FlexFlow 32	Up to 32 L/min	£ 532.50	£ 516.90	£ 501.25	All Genius 10 Series
		\$ 850	\$ 825	\$ 800	
		€ 654.98	€ 635.79	€ 616.54	
FlexFlow 64	Up to 64 L/min	£ 814.50	£ 783.20	£ 751.90	All Genius 30 Series
		\$ 1300	\$ 1250	\$ 1200	
		€ 1001.84	€ 936.34	€ 924.84	

*Subscription is fully inclusive of gas generator hire, annual servicing, all service kits, spare parts and rapid response on-site breakdown / maintenance coverage, including priority technical support.

Further discounts may be offered, subject to approval by Sales Manager. Please do not quote below list price without prior agreement.

Additional Costs

Initial Setup Deposit**	2 month's subscription charge (based on above table selection)
Freight	Customer location dependent (i.e. standard approach applies). Please contact logistics for more information
Mid-Term Subscription Change	£ 93.98 / \$ 150 / € 115.60 per amendment

**Deposit is non-refundable & is taken as initial payment for first two months of FlexFlow contract.
