

Register your generator as soon as it is installed!

Having successfully installed your new Peak generator you must register the product with us before you can begin operation and to get the full benefit of the 2 year warranty*.

To register your product download the Peak Gas App or visit
www.peakscientific.com/activate

Complete peace of mind

Not all gas generator warranties are equal. What differentiates Peak from our competitors is that we offer a **fully comprehensive warranty**. This means that in the event that your gas generator develops a problem we endeavor to have a **dedicated service engineer on-site in your laboratory to resolve the issue** and get you back up and running with minimum fuss and expense. What's more, when we say fully-comprehensive, we mean it. **Every part of your generator is covered during warranty**, unlike other gas generator manufacturers who only cover certain components.

It's as
easy as
123

1. Download the Peak Gas App by searching for "Peak Gas" in the App Store or visit www.peakscientific.com/activate
2. Complete the registration form to get your unique generator pin code
3. Input the pin code to the generator to begin operation and activate your 2 year warranty*

PEAK 
SCIENTIFIC
